## PROFILE

I am an enthusiastic and passionate web developer with a love for technology. I enjoy exploring new tools and creating innovative, high-quality products. I'm excited to stay up to date with the latest trends and advancements in the tech world and apply them to my daily work. I'm constantly seeking new challenges to grow and improve my skills as a developer.

## PROJECTS

### Cocktail App

Technologies: HTML, CSS, Javascript, Vue, Axios, and Netlify making requests to an API for searching and filtering different types of cocktails and ingredients.

[View project](#)

## WORK EXPERIENCE

### Soluciones Financieras Chinchin C.A (may 2023 – june 2023)

Junior Back-end Developer at a Fintech company that offers multi-currency accounts for money management. I worked on the development and maintenance of microservices using technologies such as Node.js, Express, and MongoDB.

### Academlo Inc (january 2023 – april 2023)

Writer and editor, I supported the creation and launch of a newsletter for Latam focused on the technological ecosystem, and I was in charge of editing and revising a business book implementing artificial intelligence tools.

### Zitro Gold Inc C.A (december 2020 – december 2022)

Chief Executive Officer of a company in the field of textile sublimation, clothing cutting, and manufacturing; I contributed to the creation of new high-quality products and oversaw the successful market entry of the startup, establishing it as a strong and well-known brand.

### LDS Church International Corporation (july 2018 - july 2020)

I held various leadership positions such as District Leader, Zone Leader, Trainer, and President's Secretary, achieving my first promotion within 3 months. While serving as a regional representative with a team of 180 people, I managed corporate records and finances. I gained high levels of work efficiency and stress mastery, resulting in a 370% increase in sales.
